

MMA Capital Management Announces Third Quarter 2017 Financial Results and Investor Conference Call

BALTIMORE, Nov. 9, 2017 /[PRNewswire](#)/ -- MMA Capital Management, LLC (NASDAQ: MMAC) ("**MMA Capital**" or "**the Company**") today reported financial results for the quarter ended September 30, 2017, including common shareholders' equity of \$135.7 million, or \$23.26 per share of diluted common shareholders' equity ("**Book Value**"). The Company filed its Quarterly Report on Form 10-Q for the quarter ended September 30, 2017 (the "**Third Quarter 2017 Report**") with the Securities and Exchange Commission ("**SEC**") earlier today and will hold an investor call on Friday, November 10, 2017 at 8:30 a.m. EST.

Common shareholders' equity increased from \$127.5 million at June 30, 2017 to \$135.7 million at September 30, 2017. Similarly, Book Value per share increased to \$23.26 at September 30, 2017, which represents an increase of \$1.57 per share of Book Value compared to what we reported at June 30, 2017. These increases were primarily attributable to \$9.9 million of net income from operations, which was anchored by quarter-over-quarter increases in fee and other income, equity in income from unconsolidated funds and ventures, and net gains on assets, derivatives and debt extinguishment. We also recognized in the third quarter of 2017 \$0.1 million of other comprehensive income that was allocable to common shareholders. In comparison, we recognized \$11.1 million of comprehensive income that was allocable to common shareholders in the third quarter of 2016, which consisted of \$4.2 million of net income that was allocable to common shareholders and \$6.9 million of other comprehensive income that was allocable to common shareholders.

Michael Falcone, MMA Capital's Chief Executive Officer stated, "We had another busy quarter to start the second half of the year with additional realization events in our LIHTC management business coupled with favorable returns from real estate-related investments and investor capital raising efforts in South Africa. After a measured start to the year we are on pace to exceed our performance goals for the year and continue to see opportunities to drive value for shareholders. Additionally, our project-based solar lending business continues to be a source of growth as reflected in the year-over-year increase in our equity in income from our renewable lending ventures. Our asset management efforts, combined with good market conditions, have contributed to our success so far this year, and we hope to see further success from our realization efforts as the year unfolds.

"We also executed on our capital allocation strategies, including our stock buyback plan and additional retirement of debt at a discount during the quarter. For the quarter, we bought back approximately 49,000 shares at an average price of \$23.73 and retired additional debt at a discount resulting in a gain of approximately \$1.0 million. Lastly, as a function of the reported Book Value, the maximum price at which we may buy back stock will adjust to \$26.75 and that price will remain in effect until our next quarterly filing."
